

# LOGISTICS & TRANSPORT

**This dashboard provides a comprehensive view of shipping operations, financial performance, and logistics efficiency across global routes. It enables stakeholders to monitor revenue, profit, container movement, and delivery metrics**

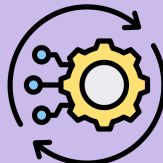

Overview

Financial  
Performance

Operational  
Efficiency

Map

### Financial Performance

Achieved \$3.55M in revenue and \$835K in profit with an average profit margin of 23.5%.

### Service Efficiency

On-time delivery stands at 31% with an average delay of 2.41 days—key area for improvement.

### Operational Volume

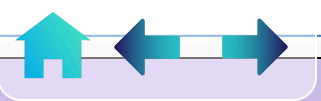

Shipped 14K+ TEUs across 6,760 containers, with major contributions from Neptune Freight and Atlas Maritime.

### Insightful Drilldowns

Deep dive available into shipments by country, carrier, container type, and vessel for detailed performance analysis.
